CREATING VALUE

At MRP Solutions, creating value isn't just a principle—it's the foundation of every closure and jar we manufacture. By putting safety first, we ensure that every product you receive upholds the highest standards of quality and protection, safeguarding both your goods and your reputation. Our commitment to value means we don't just deliver reliable packaging; we strive to be a trusted partner, dedicated to your ongoing success.

Every member of our team plays a role in delivering this value, ensuring that every product is made with care, consistency and a focus on long-term results for you.

Experience the difference that a true value-driven partner can make with every order—security, quality and partnership in every MRP Solutions closure and jar.

SEAMLESS SERVICE

Our Commitment to Customers

Seamless Service is more than a promise—it's our standard. Every customer, every day, benefits from our dedication to making business effortless, reliable and collaborative. We understand the importance of smooth transitions and proactive problem-solving, especially when challenges arise.

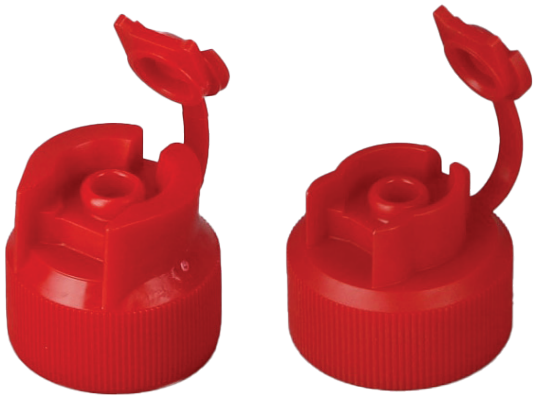

Our teams are committed to maintaining high delivery performance, while leveraging backup resources, strategic prioritization and creative sourcing across our facilities to guarantee uninterrupted service.

Seamless Service sets MRP Solutions apart, providing customers with unmatched reliability, innovation and care—qualities you'll find in every product and interaction.

STRAP CAPS

MRP's Charcoal Lighter CRC Strap Cap not only enhances user convenience, but also meets the latest industry standards for safety compliance. Our Charcoal Lighter closure conforms to all CR protocol guidelines in accordance with the Consumer Product Safety Commission (CPSC), including flame mitigation device safety CPSC guidelines.

DIFFERENTIATED VALUE MATCH

At MRP Solutions, our Differentiated Value Match ensures that we're not just another supplier, but the preferred partner for our customers.

What Sets MRP Solutions Apart?

Exceptional Products: We deliver quality that meets or exceeds industry standards, so you can be confident in every order.

Consistent Reliability: Our teams prioritize safety and precision in manufacturing and shipping, ensuring you receive exactly what you expect, every time.

Dependable Delivery: Timely, accurate deliveries are our promise—helping you keep your business moving smoothly.

By focusing on these strengths, MRP Solutions delivers a differentiated value that sets us apart—making us the best choice for your packaging needs. We're dedicated to building lasting partnerships, helping our customers succeed, and providing service you won't find anywhere else.

JARS & VIALS

Ideal markets: Food, personal care, OTC pharmaceuticals, industrial, home care and much more

Material: Polypropylene (PP), Polystyrene (*)

All jars are manufactured in our Plattsburgh facility unless otherwise noted.

EXECUTION EXCELLENCE

At MRP Solutions, our commitment to execution excellence ensures every stage of our manufacturing process is optimized for safety, quality, and efficiency. By minimizing waste and leveraging advanced automation, we guarantee precision and rapid turnaround, which means your products reach the market faster. Customers benefit from consistent, high-quality packaging delivered on time, every time, allowing you to stay ahead of competitors with reliable, innovative solutions.

Our streamlined processes mean cost-effective, sustainable solutions for your packaging needs, with the added advantage of domestic manufacturing in the USA. Trust MRP Solutions for dependable performance, speed to market, and peace of mind with every order.

LINERS

Liners are an important part of a complete package and assure that a container's contents are secure. Whether you need a liner for freshness and protection, to prevent leaks, allow product venting, or to provide tamper evidence, our complete selection of liners will meet your packaging needs. From foods and pharmaceuticals to cosmetics and home care, we can meet any industry requirement.

AVAILABLE FUNCTIONS

WS – Welded Seal
CP – Clean Peel
TR – Traditional/Gasket
EE – Easy Entry
HB – High Barrier
PRS – Pressure Sensitive

CONTAINER MATERIALS

PVC – Polyvinyl Chloride
PET – Polyester
PP – Polypropylene
PS – Polystyrene
PE – Polyethylene
UV – Universal
GL – Glass

IMPRINT OPTIONS

SFF – Sealed for Freshness
SFYP – Sealed for Your Protection
LNP – Lift 'n' Peel™
QS – Quality Seal
R – Red
B – Black
W – White
G – Green

IN-HOUSE COLORS

We mold the rainbow. Whether you're using color to define a brand, or to brand within a brand, it's a great way to achieve a unique look that stands out on the shelf. MRP Solutions keeps a variety of standard pigments in house.

Don't see what you need? We can also match any specified color to support your brand. Color availability varies by manufacturing location.

SUSTAINABILITY IS OUR RESPONSIBILITY

MRP Solutions is an environmentally responsible manufacturer of packaging. We take pride in our ongoing initiative to delight our customers by offering more sustainable products which reduce the amount of plastics used, provide recyclable options and promote reuse wherever possible.

We have continuously invested in our manufacturing facilities to identify technology which conserves energy, uses renewable energy, and minimizes environmental impacts to our community and neighbors while we find a way to incorporate and reuse all material and recycle all scrap.

In this day and age, it is important we take our efforts one step further and conduct the research necessary to educate our employees, customers and consumers on the advantages of plastics as a packaging choice, the importance of proper recycling and identification of viable options.

THE POWER OF PLASTIC PACKAGING

Protecting products. Preserving resources. Creating possibilities.

Plastics play a critical role in modern life, enabling everything from medical devices and technology to food preservation and product protection. When thoughtfully designed and responsibly managed, plastic packaging delivers significant benefits throughout the supply chain.

PROTECTS PRODUCTS

Packaging serves as the first line of defense against contamination, damage, leakage, and spoilage. Effective packaging helps ensure products arrive safely and perform as intended. MRP Solutions' packaging is designed to provide best-in-class product protection while ensuring consumer confidence.

REDUCES ENVIRONMENTAL IMPACT

Life cycle assessments indicate that plastics generally have a smaller environmental footprint than many alternative materials, including steel, aluminum, and glass.

IMPROVES TRANSPORTATION EFFICIENCY

Because plastic packaging is lightweight, it helps reduce transportation-related energy use and contributes to improved fuel efficiency across supply chains. Plastics also help reduce carbon dioxide emissions through these efficiency gains.

HELPS REDUCE PRODUCT WASTE

Plastic packaging plays an important role in protecting food and consumer products from damage and spoilage. By helping products stay fresh longer and reach consumers in good condition, plastic packaging can reduce waste and support more efficient use of resources throughout the supply chain.

ENABLES RESPONSIBLE CIRCULARITY

Today's packaging solutions increasingly incorporate recyclable designs and post-consumer recycled (PCR) materials while supporting efforts to improve plastics recovery and recycling systems.

PACKAGING WITH PURPOSE

At MRP Solutions, we believe packaging is more than a container. It protects the products people rely on every day, preserves valuable resources, and helps goods move safely and efficiently through the supply chain. Guided by our commitment to creating long-term value, we design packaging solutions that improve safety, reduce waste, enhance performance, and support responsible use of resources.

Because when packaging protects products, reduces waste, and creates confidence, it creates value that extends far beyond the package itself.

PACKAGING WITH PURPOSE.
